

ACT Research Program Proposals & Publications Committee: Manuscript Acknowledgement Guide

Sample ACT Acknowledgement Statement:

All current manuscripts that use ACT data must cite the current ACT U19 (U19AG066567) and prior ACT U01 (U01AG006781) grant numbers. In most cases the acknowledgement statement below should apply. Additional details on each grant are included below for reference.

"This research was funded by the National Institute on Aging (U19AG066567). Data collection for this work was additionally supported, in part, by prior funding from the National Institute on Aging (U01AG006781). All statements in this report, including its findings and conclusions, are solely those of the authors and do not necessarily represent the views of the National Institute on Aging or the National Institutes of Health. We thank the participants of the Adult Changes in Thought (ACT) study for the data they have provided and the many ACT investigators and staff who steward that data. You can learn more about ACT at: <https://actagingstudy.org/>"

ACT Ancillary Grant Numbers

Certain data or types of data in the ACT Repository were supported by ancillary grants and may require the additional acknowledgement of additional grant numbers in your acknowledgement and/or funding statement.

Project Title	Primary Grant Number	When to Cite
ACT - Air Pollution	NIEHS: R01ES026187	If manuscript includes data from the ACT Air Pollution project, including information on historic air pollutant exposures in the ACT cohort.
ACT Imaging Records (AIR)	NIA: RF1AG056326	If manuscript includes brain MRI images or data derived from MRI images for the ACT cohort.
ACT- Eye	NIA: R01AG060942	If manuscript includes data from the ACT Eye project, including information on ophthalmic examinations from study visits from 2022 forward.

Sample Data Sharing and Availability Statement

"The datasets used and/or analyzed in the current study are available from kpwa.actproposals@kp.org on reasonable request and execution of appropriate human subjects review and data sharing agreements."

ACT Study Description and Overall Goals

For projects funded via the U01 (9/30/1986 – 4/30/2021):

Grant Title: Alzheimer's Disease Patient Registry (ADPR/ACT)

Grant Number: U01AG006781

The Adult Changes in Thought (ACT) study supports the conduct of scientific research on older adults, cognition, and brain aging via a longstanding cohort and data resources.

The *overall goal* of the Adult Changes in Thought study is to conduct research to understand factors that contribute to Alzheimer's Disease and Related Dementias, and to leverage a repository of carefully collected and curated data resources including self-report, electronic health records, biologic, and device data to deepen our understanding of the aging brain in a well characterized community-based longitudinal prospective cohort study.

For projects funded via the U19 (05/01/2021 - 4/30/2026):

Grant Title: Adult Changes in Thought (ACT) Research Program

Grant Number: U19AG066567

The Adult Changes in Thought (ACT) U19 is comprised of three projects, six cores, and administrative infrastructure to support a robust research program on older adults and healthy aging. The U19 Program will provide valuable data on extremely well characterized individuals and aims to identify targets for prevention and treatment of Alzheimer's disease and other age-related disorders and facilitate greater collaborative research by expanding and improving dissemination of our exceptional resources. The *overall goal* is to conduct collaborative research and provide a sophisticated repository of data resources to support studies of the biology, epidemiology, and neuroscience of aging.

Further detail on the ACT Research Program and its structure can also be found on the ACT Study website at the following address: <https://actagingresearch.org/about/research-program>

Descriptions of ACT Cohort and ACT Data Repository

- 1) **A description of the ACT Cohort** can be found on the ACT website at the following address: <https://actagingresearch.org/resources/act-cohort>
Please review this description and use it to inform your manuscript/presentation's description of your sample as appropriate.
- 2) **A description of the ACT Data Repository** can be found on the ACT website at the following address: <https://actagingresearch.org/resources/act-data-repository>
Please review this description and use it to inform your manuscript/presentation's data and methods description as appropriate.
